

# CANADIAN RIGHTS MATTER

## DO YOU KNOW WHERE YOUR COVID 19 TEST SWAB GOES?

Canadian Rights Matter  
obtained information that the  
swab and specimen is not  
thrown away after this test.

## Did you know that our Government is changing our privacy laws right now?

The tech industry "Superclusters" are at this moment, lobbying to persuade our  
MLA's to hold hostage our information, and blackmail us to refuse our rights and  
freedoms and entrance into events unless we comply with their agendas!

Sue Paish, CEO Tech Superclusters & Jill Tipping, CEO of BC Tech Assoc. spoke  
to BC MLA's on July 8, 2020, at the Special legislation committee meeting on  
(PIPA) the personal information and protection ACT. Sue Paish stated, *"If you  
want to go to the hockey game, then you consent to the elements of contact  
tracing. If you don't feel comfortable consenting to that, then, that's totally  
fine, but your not going to the hockey game."* ref: [https://www.leg.bc.ca/  
parliamentary-business/committees/41stParliament-5thSession-pipa](https://www.leg.bc.ca/parliamentary-business/committees/41stParliament-5thSession-pipa).

Replace Hockey game with, work, school, travel, food or what is important  
to you. **INTENT is to deny your rights if you do not comply!**

### NEED MORE?

Justin Trudeau is  
colluding with the  
superclusters

### DON'T BELIEVE US YET?

Go to  
[DNASTack.com](http://DNASTack.com)  
listen to Trudeau's  
message

### WONDERING WHO IS FUNDING THE SUPERCLUSTERS?

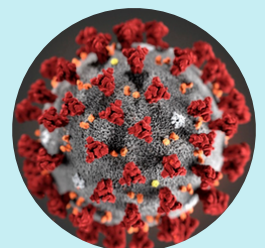

YOUR TAX  
DOLLARS!

**Your specimen  
is on the testing  
swab.**

**Your DNA is  
being collected,  
and harvested.**

**Your private  
information is  
Collected and  
shared under the  
guise of COVID.**

## JUSTIN TRUDEAU PLEDGED MILLIONS TO THE SUPERCLUSTER INITIATIVE

---

These Tech Superclusters told our MLA's in these legislative meeting, *"We might not like the decisions"* However, *"If you don't want to let people know where you are, then that's fine, you don't get to go to the event, or WHATEVER ELSE THAT MIGHT BE!"*

They will change our laws to fit their agenda.

They get funding while Canadian small business and individuals lose their rights.

"DNASTack is developing a new cloud-based network that allows researchers looking to improve our ability to diagnose and treat COVID-19 to share their findings."

***As if this wasn't bad enough...***

GLOBAL COMPANIES want to collect, harvest, share and use your **DATA, GENOMIC & HEALTH information** for future use for an indefinite period of time. They will own your private information.

The Superclusters stated in the legislative meetings that they want to share your private data and information with the EU and other nations by changing the Privacy laws. The Superclusters want to force you into consent as they say, *"You don't get to go to the event, or whatever that might be"*

**Your Data, Genomic and Health information will be their commodity without your consent.**

The Government and the Superclusters are busy behind your back, but we are watching them.

Our Consultants have ongoing investigations into these and other matters. We have several freedom of information requests locally, internationally and globally to provide you the answers that all of us have a right to know! **WE WILL EXPOSE THE TRUTH! To empower you to Protect and Defend your Human Rights, Civil Liberties, Privacy Rights & Canadian Charter of rights and freedoms.**

**JOIN OUR MOVEMENT**

**PROTECT YOUR RIGHTS**
